

# Step By Step Instructions to Activate Your Chopra Account

## What is the Chopra Account?

*Chopra Account* is a *Single Sign-On* system and it allows you to use your credentials to log on to multiple Chopra Center websites. Rather than have each website maintain separate user accounts, users log in through the Chopra Account Portal to access all of their Chopra Center purchases and account information. This should all happen seamlessly in the background. A primary benefit is that you will only need to remember one user name and password.

You will only need to activate your email address for your first visit to the Chopra Account.

## Step 1: Enter your Email and Password

Enter your email address and password at the Chopra Account login screen and click **Log In**. The log in screen will be the same for all Chopra Center websites. You can access this login screen by visiting [account.chopra.com](http://account.chopra.com) or by visiting any of our Chopra Center websites and clicking **Sign in with Chopra**.
